Can we get this posted on the website under BUOYS? Thanks.

Attention Boaters!

Boat Inspection Reservations Start April 1, 2021

For over a decade there have been no new invasive species detected in Lake Tahoe thanks to the boat inspection program. Due to Covid-19 last year, the program offered reservation-only inspections, while this year reservations *and* drop-in's will be allowed.

In 2021, the optional reservation system will be available for a \$15 convenience fee. Each of the three regional inspection stations

(located in Meyers, Alpine Meadows, and Spooner Summit), will have at least two inspection lanes available at all times. To schedule appointments beginning **April 1, 2021** please visit <https://tahoeboatinspections.com/>

Also updated this year, the north shore inspection station will return to Alpine Meadows and no inspections will be conducted at the Truckee airport. The Spooner Summit, NV and Meyers, CA stations are expected to open as usual this summer.

Make your appointment early to avoid long lines and take advantage of what looks to be a spectacular boating season.

Don't forget you will need to purchase your 2021 annual sticker and you can do that at: <https://tahoeboatinspections.com/stickers-and-fees/>

Your Rights. Our Purpose.
